

Accuracy in the field is what every archer strives for, equally important is the ability to be concealed in the environment. **Lost Camo®**, exclusively found on Mathews® bows, has a distinctive, larger, multi-directional pattern designed to break up at both close and long range, so you can “**Get Lost™**” in just about any natural setting!

Lost Camo® is available on many fine hunting products that can be found at your local Authorized Mathews® Retailers.

View the entire line of products at lostcamo.com.

Mathews Genuine™ Accessories

Introducing the New Arrow Web® CT-Series Quiver

Tactical

Black

Quick Release Grip

Created for fast and easy arrow access.

Custom Color Hood Inserts

Personalize your CT-Series Quiver with custom color inserts. Available in 10 colors. Each CT comes standard with black, red and blue. (excluding tactical)

Redesigned Foam Inserts

New foam designed specifically for most expandable broadheads and fixed blades 1-1/8" and under.

Harmonic Damper®

Mathews® Harmonic Damper® absorbs residual sound and vibration.

Detachable Blade Protector

Developed for use with most expandable broadheads, the blade protector helps keep your blades sharp and you safe.

GridLock™ Structure

Spider Claw® Quiver Mount

Quickly and easily mount the CT Quiver with the exclusive Spider Claw™ System.

Custom Damping Accessories®

Personalize your Mathews® with Custom Damping Accessories®. Available in 10 different colors, these rubber accessories not only absorb vibration and reduce noise, they also look amazing on your bow. If that's not enough, put on a couple Monkey Tails™, the do-it-yourself string and cable damping system. They install in seconds and no bow press needed.

Harmonic Stabilizer®

The Harmonic Stabilizer® and Harmonic Stabilizer® Lite reduces post-release vibration by up to 75%, and the Harmonic Stabilizer® Lite is nearly 70% lighter than the original.

Dead End® String Stop

The Mathews® Dead End® drastically reduces residual vibration and virtually eliminates post-release noise. Fits most bows currently equipped with a rear stabilizer bushing and installs in minutes.

Focus® Grip

The Mathews® Focus® Grip's patent pending "Focus Ridge" optimizes hand placement, and minimizes hand torque by keeping pressure in the center of the grip. Available in 9 custom colors.

Mathews Genuine™ Ultra-Rest®

Full Containment

The Ultra-Rest® provides total arrow containment, even with a slow let-down.

Harmonic Damper®

Easy Adjust Timing Cord

Thumbwheel

Arrow Web® T-Series Quiver

The T-Series ArrowWeb® Quiver is the quick and easy way to attach and detach your quiver. The foam insert accommodates 5 fixed blade or expandable broadheads. The ArrowWeb® easily converts to right or left-handed set-ups, and adjusts for long arrows. Available in Black, Tactical and Lost Camo® finishes.

Arrow Web® FP-Series Quiver

FP-Series ArrowWeb® Two-Piece Quivers come in both 5 and 7-arrow configurations, for right or left handed shooters and easily mounts in minutes. The quiver hood holds a foam insert that accommodates both fixed blade and expandable broadheads. Available in Black and Lost Camo® finishes.

CUSTOMIZE YOUR MISSION®

Remember deer only see in black & white, so if you're not into standard camo, consider customizing your bow with one of our new "Splash" finishes. With just enough color to set you apart from the rest and the breakup in pattern you'll need to blend in to your surroundings, these patterns are a fun way to be both unique and effective in the field.

Other custom finishes available on select Mission® bows:

NEW FOR 2014

RSD™ SYSTEM (Patent pending)

For 2014, we lead the industry with the first-ever silent mechanical cocking device for crossbows. The patent pending RSD™ (Removable Silent Draw) system fits all Mission® MXB® Crossbows and can be installed or removed in a matter of a few seconds. In addition to being completely silent, the RSD™ improves accuracy through the use of a floating rope-pull that ensures equal tension is applied to each side of the bowstring during the draw. The RSD™ system is outfitted with a removable, ambidextrous handle that when engaged will reduce the operator's effort by twenty five times. The RSD™ system makes it possible for virtually anyone to draw a crossbow in complete silence.

Helping kids draw out their inner hero.

Genesis®, the official bow of the National Archery in the Schools Program.

Through our exclusive partnership with NASP, Genesis™ bows are helping millions of young archers enhance confidence, focus and discipline.

- **NASP® is still growing!**
Over 10 million students from over 10,000 schools in 47 states and 6 countries have participated in NASP®.
- **Everybody can shoot.**
Success is not based on physical ability, but on individual skill.
- **Archery engages students.**
Regardless of age size or gender, and helps improve academic performance, attendance and behavior.

The Genesis™ bow, available in a wide range of colors.

Over 10 million kids have shot a Genesis™

The revolutionary Genesis™ bow is giving kids all over the world a new sense of adventure, and with revolutionary features like, Zero Let-Off Technology Genesis™ bows offer advantages that make them a perfect choice for archers of any age or size. Because the draw length is always "right," beginning archers can't develop bad habits caused by an improperly fitted bow, and since there isn't any specific draw length, kids can't outgrow it. Built to last, Genesis™ bows are manufactured with a tough, aluminum riser and durable composite limbs to provide a lifetime of adventure... **Join the Revolution!**

genesisbow.com

Introducing Zebra® Trophy, The Most Advanced Bowstrings & Cables You Can Shoot.

After nearly 20 years of research and development we are proud to present the most advanced bowstring we've ever produced.

Our all new proprietary Trophy Process, combined with an ultra premium blend of BCY material, have produced a new string and cable with all the qualities today's archer's demand.

And, Zebra® Hybrid uses an advanced blend of BCY material that's designed to be the high performance, hassle free bowstring and cable for you.

Zebra® Trophy truly is the professional's choice.

zebrastrings.com

New Zebra® High Performance Bowstring Wax

Increase the longevity and performance of your premium bowstring by applying Zebra® performance wax to your strings and cables regularly. Zebra® High Performance Wax is a unique formula designed to condition your strings and cables, which will help maximize the performance and life of your strings and cables.

Mix or match any 2 of these 34 amazing custom colored strings to create a look that matches your style.

SILVER XTREME HEAVY WEIGHT RAGLAN 1/4 ZIP SHIRT M12A-LC626
Sizes: M, L, XL, 2XL, 3XL

This is state-of-the-art hunting wear designed in the spirit of Mathews®; innovative, cutting edge, high-performance, premium, no corners cut. The ultimate hunting wear to go with the ultimate hunting bow.

SOLO TECH JACKET MEJ

The soft shell fabric is supple, wind resistant, burr resistant and sheds snow or light rain while remaining extremely breathable. Smack Pad sections on back and shoulders for added comfort and the removable vest helps you adjust to any weather condition.

SOLO TECH PANT MEP

Made from the same soft shell fabric as the jacket, these pants are made to hunt. The sewn-in Smack Pads in the knees and thighs protect you from rough objects while the two-way leg zips make them easy to get on and off.

LOST CAMO® ElimiTICK SHIRT MLS

Treated with Insect Shield repellent technology this shirt repels ticks and other biting insects, including chiggers and mosquitoes! Made from our Suppletuff fabric its incredibly light but sturdy, wicks, dries fast and is really comfortable.

LOST CAMO® ElimiTICK PANT MLP

We took our popular Wicked Lite pant and added Insect Shield repellent technology to create the perfect turkey or early bow season pant! Repels ticks and other biting insects.

MONSTER™ WATERPROOF FLEECE JACKET MSJ

It's made of HyperHide H2O™ so it's as quiet as it gets. The waterproof/breathable HydroCore™ laminate enables you to weather any storm. Insulated with Heat Tech™ so you'll stay warm when the temperature drops. And, it features Gamehide's exclusive Freedom Sleeve™ for unmatched mobility.

MONSTER™ WATERPROOF FLEECE BIB MSB

It will keep you warm and dry thanks to the HydroCore™ laminate and Heat Tech™ insulation. Full leg waterproof zippers make it easy to get on over boots and a two-way front zipper allows easy access.

GRID LOCK® JACKET MB9 & **GRID LOCK® PANT** MB2

The perfect mid-weight bowhunting jacket and pant combination. Soft and silent, it's everything you need on all but the worst weather days.

CHILL™ QUARTER ZIP PULLOVER MBT

Layer under your favorite shell or jacket for lightweight warmth or wear by itself for mild weather hunts. It's highly breathable, insulating and allows outer layers to slide on easily.

CHILL™ PANT MMP

The perfect layer under your bibs for an all day sit during the rut. Inside you'll find our soft, wicking fleece bonded to a poly mesh outer fabric that slides easily under bibs or shells. Made from Hyper-Hide fabric!

Additional weights available separately

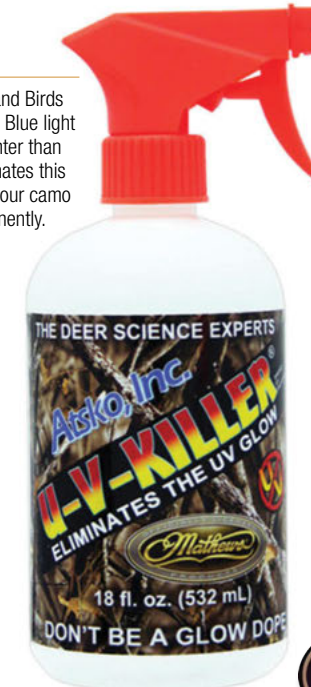

SNO-SEAL®

Keeps boots dry, warm and light. Protects leather from drying out. Keeps leather flexible, breathable and strong. Enjoy dry feet all year. Hunt longer, hunt better with warm dry feet.

UV-KILLER®

All game Animals, Fish and Birds see Ultraviolet and Short Blue light thousands of times brighter than Humans. UV-Killer eliminates this UV powered glow from your camo and other fabrics permanently.

SPORT-WASH® LAUNDRY DETERGENT

The most powerful odor destroying detergent. Cost less, cleans and rinses completely, leaving nothing for animals to see or smell. Maintains high performance clothing. No UV-Brighteners.

SPORT-WASH® HAIR & BODY SOAP

Rich lather leaves hair, skin, and scalp so clean it takes hours for odor causing bacteria to reappear. Rinses completely leaving nothing to alert game, attract insects or irritate skin.

DOA FULL CAPTURE DROP-AWAY REST

- AAE's DOA is the fastest, most accurate arrow rest made.
- Vane clearance is at over 400 fps.
- Ball Bearings for smooth action

SWIVEL DISCONNECT W/ SLING

The swivel disconnects allows a shooter to rotate their stabilizer up and out of the way for easy storage in a bow case. Instead of taking it off - just fold it up! Comes with Camo Sling and barrel nut.

SMSDLC Lost Camo®

DISCONNECTS. STRAIGHT, EIGHT & TWENTY DEGREES

Stabilizer disconnects allow rapid installation and removal of your stabilizer without risk of damage to your riser threads. Three angles are available and they feature a hex to make lining them up easier. 5/16 x 24 threads.

- SMDSHLC Straight Lost Camo®
- SMDAHL 8% Lost Camo®
- SMDA20HLC 20% Lost Camo®

Gold with Lost Camo® Face
Black with Lost Camo® Face
Gold with Diamond Plate Face

SINGLE & DOUBLE ADJUSTABLE V-BARS

Solid locking fully-adjustable single or double offset bar with an integrated disconnect that allows full rotation of the side bar. These offset bars are designed to support any stabilizer weight. 5/16 x 24 threads.

- SMAVB1LC Lost Camo® (Single)
- SMAVB2LC Lost Camo® (Double)

TRAILER HITCH COVERS

Built to last with all Anodized Aluminum. Designed to fit standard 2" receivers.

GRIPS

Replacement grips for Mathews® Adult Bows with a wooden factory handle. These grips provide a flat Consistent surface for your hand and help reduce torque. Offered in Standard and a Low profile.

- SMGMRHSLC RH Standard
- SMGMLHSLC LH Standard
- SMGMRHLLC RH Low
- SMGMLHLLC LH Low
- SMGMARHLC RH Apex & Conquest 4
- SMGMALHLC LH Apex & Conquest 4

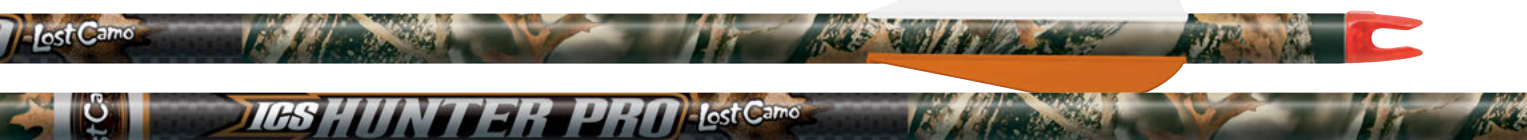

BEMAN
FIRST IN CARBON ARROWS

**BEMAN ICS HUNTER PRO
LOST CAMO® ARROWS**

Get the hot look of Lost® and the flat-shooting speed of Beman's most advanced lightweight camo carbon. The new ICS Hunter Pro Lost® comes equipped with the Microlite™ S Nocks and point inserts - giving bowhunters a flat, accurate trajectory and hard-hitting downrange impact.

**EASTON FULL METAL JACKET
LOST CAMO® ARROWS**

Get the awesome performance of the heavy hitting X-diameter FMJ Lost®. Features a micro diameter carbon core wrapped in an aerospace alloy metal jacket for magnum big-game stopping power. Available with both Deep Six RPS inserts or conventional 8-32 HIT inserts.

GENESIS® BOW CASES

Easton Genesis® bow cases feature a sleek design custom tailored for the Genesis® compound bow. Made of high-denier POLY material with thick interior padding, premium zippers & easy-grab pulls. Integrated Easton Arrow Tote attachment straps with exterior mesh accessory pocket.

Colors: Red, Pink, Blue, Black, and Lost Camo®.

Elusive Wildlife Technologies' Kill Light® XLR 100 bow lights are guaranteed to illuminate the entire target at 100 yards for positive identification. The bow light screws into the stabilizer receiver on the bow, and has a wired remote switch that attaches to the grip. The Kill Light® XLR series lights come in red, green, blue, and white, and they are available in one or two mode.

Elusive Wildlife Technologies (EWT) uses LED technology to produce specific colored lights that most animals find difficult to see. This gives the hunter the ability to illuminate the animal without spooking it. EWT uses high quality lithium rechargeable batteries and LEDs that give the hunter an average of four hours of continuous light per battery. The Kill Light® XLR 100 bow lights can also be powered by CR123s or AAA batteries giving the hunter multiple power options.

The Kill Light® XLR 100 bow light utilizes a molded dampening system, and weighs 6.5 ounces allowing it to function as standard stabilizer. EWT offers all of these features at an affordable price.

KILL LIGHT® XLR 100 PRO BOW HUNTER PACKAGE

- Kill Light® XLR 100 Dual Mode Flashlight with 40 yard low and 100 yard high ranges
- Bow Stabilizer Mount with wired pressure & On/Off switch
- Interchangeable Green, Red, and White LED modules
- Two (2) Lithium-Ion rechargeable batteries with an average 3-4 hours continuous run-time
- Smart Charger • Wall Adapter • Car Adapter

**EWT LITHIUM-ION BATTERIES
& BATTERY CHARGER**

- Average 3-4 hours continuous run-time
- Built-in Over/Under charge protection
- No memory
- Dual Station Charger
- Charge 1 or 2 batteries
- Wall Adapter
- Vehicle Adapter

MATHEWS® EDITION MAXIMA® RED™ WITH LOST CAMO® RED ZONE™

Contain the enemy of accuracy. Mathews® testing shows that Maxima® arrows make Mathews® bows shoot best, and that Maxima® RED™ arrows deliver a breakthrough level of broadhead consistency and shooting performance. This is why Mathews® and Carbon Express® have teamed up to create the Mathews® Edition of the ultimate hunting arrow: The Maxima® RED™, with a Lost Camo® RED ZONE™. This arrow has been tested in Mathews® bows and delivers the ultimate in broadhead and bowhunting performance.

- 50740 Maxima® RED™ Mathews® Edition 250 - 6 pack Arrows
- 50741 Maxima® RED™ Mathews® Edition 350 - 6 pack Arrows
- 50742 Maxima® RED™ Mathews® Edition 250 - 36 pack Bulk Arrows
- 50743 Maxima® RED™ Mathews® Edition 350 - 36 pack Bulk Arrows
- 50744 Maxima® RED™ Mathews® Edition 250 - 12 pack Shafts
- 50745 Maxima® RED™ Mathews® Edition 350 - 12 pack Shafts

MATHEWS® EDITION MAXIMA HUNTER®

The Mathews® Edition Maxima Hunter® combines impeccable Carbon Express® precision with their innovative Dual Spine Weight Forward® technology - which manages energy better, makes arrows recover faster, spin 20% sooner and retain more speed for deadly accuracy. The patented design delivers deadly speed and tighter tolerances than traditional carbon arrows, and features Mathews® Lost Camo® Pattern.

- 50700 Maxima Hunter® Mathews® Edition 250 - 12 pack Shafts
- 50701 Maxima Hunter® Mathews® Edition 350 - 12 pack Shafts
- 50715 Maxima Hunter® Mathews® Edition 250 - 36 pack Bulk Arrows
- 50716 Maxima Hunter® Mathews® Edition 350 - 36 pack Bulk Arrows

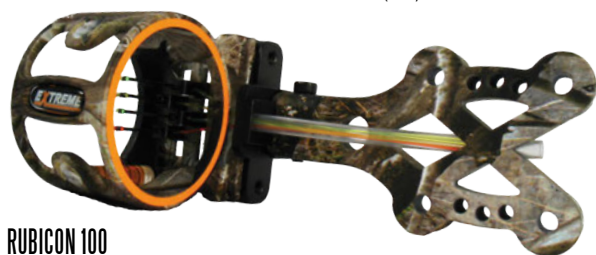

NOSE JAMMER®
WRONG WIND? JAM 'EM!

NOSE JAMMER

Lost Camo® Edition
12 count display 6 oz aerosol cans.

- Utilizes vanillin and other compounds found in trees.
- Delivered at concentrated levels to effectively overload sense of smell.

RUBICON 100

- Integrated sun shade with logo and purple haze rheostat light included
- Second and third axis leveling adjustment
- Right or Left hand

EDGE BUCKLE FOLDBACK

The Edge is designed with a smaller than dime sized head. Even though it has been scaled back to suit your tastes, the Edge retains the functionality and benefits you expect from TruFire. This small product innovation is a perfect example of how we continue to engineer products that will help you become a better shot.

HARDCORE BUCKLE FOLDBACK

The first and only hook style release that incorporates Tru Center Technology (TCT). TCT actually allows the head to pivot 20° side to side, ensuring that at full draw the Hardcore is perfectly positioned, torque free, behind your arrow.

LD 360 SKIRT

CYCLONE 100 GRAIN GOLD
Lost Camo® C3100-M

Flying Arrow Archery, LLC revolutionized the broadhead industry in 2013 with its unique arcuate blade design. The coring design on the Toxic broadhead has given bow hunters around the world the results they crave with its accuracy, wound channel, and successful harvest rate. The Toxic comes standard with open-flex technology and a single beveled edge. This technology is accompanied by a bone crushing chisel tip that allows the broadhead to penetrate exceptionally well.

TOM BOMB 125 GRAIN
Red TB125

CAMOFX® LOST CAMO® FACE PAINT SYSTEM CFXLC

CamoFX® Lost Camo® is equally effective in all kinds of terrain, western draws, fence lines, rocky hillsides or the Texas brush. The colors in Lost Camo® are found everywhere in the country, 12 months of the year. The Lost Camo® pattern is larger than most patterns on the market, which means it will stay effective even at long distances.

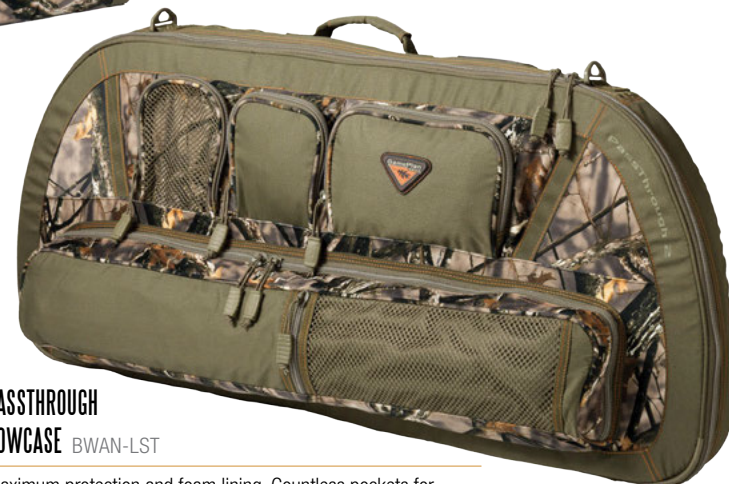

**BOWBAT XL
BOW CARRIER** BWBT-LST

Patented gear carrier puts all of your gear onto your bow. Eliminating your backpack and also freeing you up to carry a treestand. Protective sling also transforms into a treestand backrest. Silent brushed Tricot.

**FULL RUT
BACKPACK** FRBK-LST

Whitetail-minded backpack employs a strap system to carry rattling antlers both quietly- and safely. Cleanable PVC-lined scent pocket, "BowTote" bow carry strap, Silent brushed-tricot fabric, Monster #10 Zippers. Includes (2 pc.) "PackStraps" to attach your bow or quiver.

**PASSTHROUGH
BOWCASE** BWAN-LST

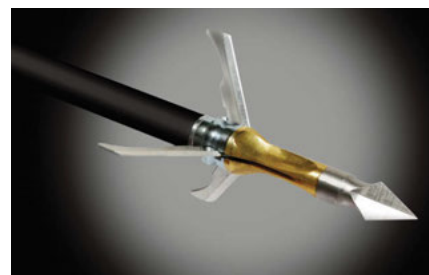

Maximum protection and foam lining. Countless pockets for items like bins, release aids, and tools. Interior 'block-and-strap' system prevents bow from sliding around, Mesh interior organizer. 40" overall interior length.

**Grim Reaper®
BROADHEADS**
Watch'em Drop!

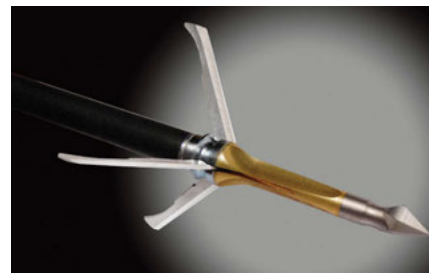

**MATHEWS® EDITION
1 1/2" CUT**

The Mathews® Edition 1 1/2" cut head is based on our all time best selling mechanical broadhead. Exclusive to the Mathews® dealer is a new bone-busting tip, and brushed gold aluminum body.

**MATHEWS® EDITION
2" CUT**

The Mathews® Edition 2" Whitetail Special is the perfect match for high energy Mathews bows, and deer sized game. Same features as our original, but designed to create huge wound channels.

**MATHEWS® EDITION
FIXED BLADE**

The Mathews® Edition fixed blade is our proven Hades, with the addition of the Mathews® exclusive, bone-crushing tip, and brushed gold ferrule. The best flying fixed blade on the market.

PRO HUNTER MAXX

Bee Stinger's Pro Hunter MAXX Stabilizer incorporates a unique, patented and fully customizable end weight system designed to maximize a bow's moment of inertia to improve aiming and reduce bow torque throughout the shot. The ultra-rigid 100% carbon bar coupled with three large diameter, focused end weights allow configurations of 2, 4, 6, 8 or 10 ounces for the ULTIMATE in accuracy-enhancing bow balance and stabilization.

SPORT HUNTER XTREME

Bee Stinger's Sport Hunter Xtreme Stabilizer is specifically engineered to maximize a bow's moment of inertia to improve aiming and reduce bow torque throughout the shot. The ultra-rigid 100% carbon bar coupled with three adjustable end weights allow fine-tuning in 1 ounce increments optimizing perfect bow balance and stabilization.

Gold Tip proudly offers its best-selling "Hunter" arrow in Lost Camo® for the ultimate in concealment and performance. Fully decorated in Lost Camo®, Gold Tip's proprietary process results in the most durable camo arrow finish on the market, guaranteed shot after shot regardless of target type! ULTRALITE X-TREME SAFETY HARNESS HSS-380L

- LIGHTWEIGHT - WEIGHS ONLY 2.5 LBS!
- Padded UPPER for all-day comfort and less fatigue when loading equipment.
- Trim Fit - for less bulk and better mobility at the moment of truth.
- Accessory straps keep binoculars and rangefinders in-check and at the ready.
- Patented design eliminates dangerous dangling straps and weave-through buckles.
- Silent leg buckles are stronger and lighter than previous models.
- Saddle straps for comfort and resists suspension trauma when suspended.

The ultimate in lightweight comfort and security. HSS ULTRALITE harnesses are fully interchangeable with other accessories like the Lineman's Climbing Strap and Saddle Bags and offer ultra lite performance and adjustability that will take you from warm season bowhunts right through the winter months. All with NO compromise in HSS quality. This is the most comfortable "user friendly" harness available today.

FULL SEASON VELOCITY

Our most popular system has been redesigned with an upgraded fit, features and technology. The Full Season Velocity series is light enough for mid-season days, yet the micro-fleece liner adds enough loft for later months when the rut kicks in. The brushed shell is deadly silent and DWR treated to shed a light rain or morning dew. Our advanced Carbon Alloy® technology is better than ever at beating the noses of big bucks and makes this system unmatched in its versatility, comfort and performance.

- Carbon Alloy® technology for maximum scent control
- Treated with a Durable Water Repellent (DWR) finish to repel water without sacrificing performance
- Textured fleece collar reduces neck abrasion
- Five jacket pockets (3 outer and 2 inner) for gear storage
- Stretch fit cuffs help lock in scent
- Eight pocket pant design with easy access openings without noisy velcro or buttons that may snag
- Gripper waist helps keep pants secure at the waist

FULL SEASON VELOCITY BOWHUNTER JACKET

- More fabric panels for better fit and mobility
- Two new inside pockets for more gear storage
- Textured fleece collar for warmth and maximum comfort
- Stretch fit scent control cuffs
- Safety harness slot in the back
- Articulated design for resistance free full range of motion

FULL SEASON VELOCITY BOWHUNTER PANT

- Premium eight pocket pant
- Two new security pockets added to the front cargo storage pockets
- No buttons on front or rear pockets to snag when climbing
- Pockets designed for quick access when sitting or standing
- A diamond gusset delivers maximum range of motion

CODE RED

The #1 selling fall-away rest and for good reason!

The Ripcord® Code Red is the #1 selling fall-away rest. Code Red falls fast! This fast fall-away is essential to maximize forgiveness by minimizing the amount of time that any bow hand torque is able to be transferred to the arrow. This is invaluable when you are cold or stiff from sitting in a stand all day.

- Ultra-fast fall-away for maximum forgiveness
- Connects to downward traveling cable
- Soft overmolding eliminates the need for extra moleskin
- Innovative Drop Dead Brake System™ keeps launcher from bouncing back up into the arrow as it leaves your bow improving arrow flight
- Arrow Containment System™ assures your arrow can't fall off the rest, no matter what!
- Exclusive "football clip" fits all cable sizes making the Code Red easy to install

OPPOSITION LITE REST

The Opposition Lite arrow rest features a push button lock so the arrow is secured at all times.

- Handles arrow speeds of 418 FPS and beyond
- Custom fit side plates for today's most popular bows

OPPOSITION BOW SIGHT

The Opposition Bow sight comes with Opposing pin Technology. The sight has pins on both sides of the sight housing for a better field of view and a quick detach pivot lock mounting system.

**FIREHOUSE BEEF JERKY
SDA SALES**

What Makes Firehouse Jerky the Best Jerky?

Firehouse Jerky is a perfect balance of spices and great meat. We start with the best ingredients and hand craft a truly authentic jerky, with no brown sugar to mask the natural beef flavor. We smoke 800 lbs. of raw meat per batch; this allows our master smoker the opportunity to oversee all the jerky we are producing. A smaller batch sizes gives us better control over moisture levels and insures a tender jerky with an old fashion appeal. It is simply the best jerky you can buy and it's Chicago's Hometown Jerky!

We offer three distinct jerky flavors: Mild, Pepper and Hot, with very real and different levels of spice. Our mild is based on our original recipe that conveys the true nature of smoked beef, the real steak flavor of the meat shines through on this product. Our Pepper leaves you with a hint of spice and heat, but we use a larger mesh pepper, so we don't muddy the flavor. Our Hot Jerky, what can I say, we have a truly Hot jerky. The people who buy our hot jerky are really fanatical about the product. No other jerky receives so much comment and feedback. If a batch isn't hot enough we hear about it, so we try not to let you down. I think it all comes down to the quality and freshness of the spice, it should be a perfect marriage between heat and flavor of the spice, giving you a bright and slow burning heat.

TREE STAND ARROW QUIVER CADDY

- Accepts 99% of quiver mount brackets
- Position your quiver bracket at desired angle
- Will not corrode or rust
- Also available in NEW Pink Camo

**M8 TRAIL CAMERA
LOST CAMO®**

The SPYPOINT® M8 BLACK LEDs game camera captures 8-megapixel color photos by day and black-and-white photos at night and 10 to 90 sec. videos with sound. The M8 camera uses high-power invisible BLACK LEDs. The M8 model is the perfect camera to avoid spooking the game and this camera is a popular unit for security purposes because of the invisible BLACK LEDs. The 5 zone sensor will give you a faster trigger speed and ensures you get more centered images. The distance detection sensor can be adjusted from 5' to 50' and the multi-shot mode allows up to 4 pictures per detection. The removable internal camera makes this camera one of the easiest to use on the market.

- 8 Megapixels
- 46 LEDs
- Invisible BLACK LEDs
- Video with sound recording

TRAIL TREE MOUNTS

Stic-N-Pic® Tree Mounts give you the versatility to have precise scouting tools necessary to give you that extra edge.

- Installs quickly
- Adjustable camera tilt
- 360-degree rotation
- Add-A-Cam™ allows for two cameras on one mount
- Adjustable tilt/pan

Now Available, Our New Mini Ground Mount. Contact Us for Details.

TRAIL CAMERA STAND

The Stic-N-Pic® Trail Camera Stand gives you the freedom to decide where your camera should go, quickly: on or off the trail—even in between bedding and feeding areas. Get in, get out.

- Adjustable camera height (25"-51")
- 360-degree rotation
- Add-A-Cam™ allows for multiple cameras on one stand
- Adjustable tilt/pan
- 3 prong stand fits securely in the ground

Trail Camera Mounting System

ADD-A-CAM™

With the Stic-N-Pic Add-A-Cam you can attach multiple cameras to the Stic-N-Pic® Trail Camera Stand or Tree Mounts and capture the 360-degree view of your entire landscape.

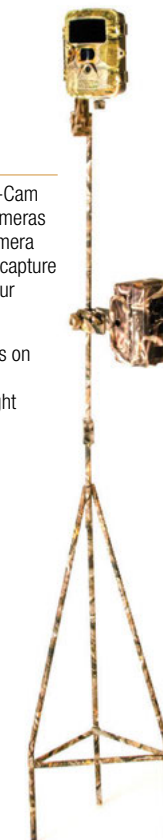

- Mount multiple cameras on one mount
- Adjustable camera height
- Adjustable tilt/pan
- 360-degree rotation

UNIVERSAL BRACKET

For trail cameras that do not have a tripod mount, but do have a bungee or strap mount, the Stic-N-Pic® Universal Bracket will allow you to attach your trail camera to our entire product line.

- Installs tripod mounts to most cameras
- Installs quickly and easily

| • 10" Hunter / 5 5/8 oz. | • 10" Hunter / 9 7/8 oz. |

STOKERIZED

Uncompromised Performance

SS1 G2

The only hunting stabilizer on the market designed to perfectly balance every bow regardless of riser torque induced from sights, rests, quivers, bow geometry, and hand pressure. Available in all colors shown.

- SS1 Hunting Stabilizer, 9" / 7 3/4 oz.

EDGE

Undoubtedly the best weight adjustable stabilizer on the market for your hard earned money. This 6" hunting stabilizer is machined from solid 6061 aluminum and weights just over 6 oz. and comes standard with our New Saturn Dampener. The EDGE is totally weight adjustable with optional additional weights.

THE OPERATOR

- Operates between riser and stabilizer
- Universal mounting rails
- Four CNC machined 1 3/8" picatinny rails
- Mount multiple accessories at once without obstruction
- The benefits of picatinny rails with your favorite stabilizer
- Two ounces of solid 6061 aluminum

DELTA RAIL

Tactical Stabilizer.

- Accepts standard tactical lights and accessories
- Side-to-side adjustable rails for accurately aligning accessories with arrow impact
- Low-frequency vibration reduction
- Light-weight, high-strength aluminum construction

HIPBONE

Tactical Bow Holder with Roller Guard Adapter.

- Quick-detach ball and socket design
- Compatible with all bows
- Frees hands for optics and stalking
- Keeps bow within hands reach
- Perfect for hunting or tournaments

Lost Camo® package includes roller guard adapter.

AXCEL® ARMORTECH HD

Features fibers that are protected their entire length by Axcel's A.F.T. (Armor Fiber Technology) and an innovative scope design T.C.V. (True Center Vision). All Armortech-HD sights include a Mathews® Harmonic Dampener®, and are available with 4, 5, or 7 pins in .010", .019" or .029" fiber sizes. Also available with the HS (High Speed) option.

FANG 3

FANG 4

T.R.U. BALL® FANG 3 AND FANG 4

NEW 2014 T.R.U. Ball FANG 3 and FANG 4. Featuring a new Full Containment System (FCS) with a Hook-style jaw that allows the archer to push the FCS Slide forward to lock the release on the D-loop for use in a hands free hunting situation or pull the FCS Slide back for repetitive shooting. The FANG 3 and FANG 4 provide the ability to shoot with no sensitivity spring for the lightest possible setting as well as a medium and heavy weight spring included in the package.

Choose from a Black or Lost Camo® anodized handle.

AXCEL® ARMORTECH HD PRO

Features fibers that are micro adjustable dovetail bracket, sizing the scope housing to your peep sight has never been easier.

Fang

Fang GS

T.R.U. BALL® FANG/FANG GS RELEASE

T.R.U. Ball® Introduces the FANG/FANG GS. The Fang/Fang GS is a superior ergonomical hook style release, featuring a rubber insert in the trigger for improved feel. Fang/Fang GS contain a separate travel and sensitivity adjustment, based on the archers desire.

Choose a Black or Lost Camo® anodized head, with a black Velcro® strap or black leather buckle strap.

TACTACAM
Share your Hunt!

TightSpot™

The quiver that fits tight to your bow

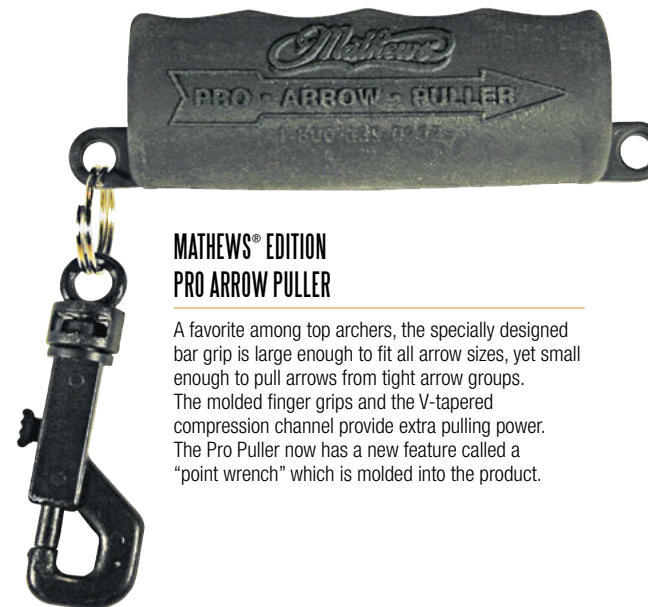

LOST CAMO® TIGHTSPOT™ QUIVER

- New Acoustic Dampening Material makes it quiet
- Better bow balance
- Dramatically reduce torque
- Kills vibration 4 ways
- 20x more arrow gripping power
- No more dull broadheads or accidentally deployed expandables
- Rubber hood outlasts foam 10 to 1
- Also available in Black Tactical, Desert Tactical, Black Crimson and more
- Made in the USA

THIRD HAND

ARCHERY ACCESSORIES

MATHEWS® EDITION PRO ARROW PULLER

A favorite among top archers, the specially designed bar grip is large enough to fit all arrow sizes, yet small enough to pull arrows from tight arrow groups. The molded finger grips and the V-tapered compression channel provide extra pulling power. The Pro Puller now has a new feature called a "point wrench" which is molded into the product.

LOST CAMO® UNIVERSAL TREE STAND BOW HOLDER

The Third Hand Tree Stand Bow Holder fits all stands, holds all bows and can be easily mounted to the outside edge of wood, steel or aluminum tree stands, often without drilling. It keeps bows in a ready position next to the hunter's seat while providing the hunter a full range of motion.

BUCK BOMB DOE IN ESTRUS

5 ounces of 100% Doe in Estrus urine, can be sprayed intermittently or locked down to fog out entire contents. "Buck Bomb Blows Away Traditional Scents!"

BUCK BOMB SCRAPE GENERATOR

Synthetic strips pre soaked with Buck Fever Synthetic Scents forehead gland scent, re-activates with moisture, encourages bucks to "GENERATE" scrapes prior to normal rutting activities.

BUCK BOMB DETONATOR

12 inch long, 1 inch wide scent wick that rolls up inside the rugged canister. No-Leak O-Ring Seals prevent leakage, comes with a container of Doe Estrus Urine.

HOT SHOT® #69 DOE-IN-RUT®

Internal bag separates the urine from the pressurizing agent so there is no contamination for guaranteed 100% pure urine and total evacuation of product from the can.

- Quieter spray that won't spook deer
- Consistent spray without "spitting"
- Sprays at any angle, even upside down
- Powerful mist for long-range attraction

#69 DOE-IN-RUT® BUCK LURE

The finest doe estrus, plus our secret ingredient. Made from 100% natural doe estrus urine collected from live whitetail doe during their estrous cycle.

- Tink's #1 selling Original Formula
- A brand trusted by hunters for over 40 years
- Used during the pre-rut and rut
- Also available in the Original Glass and Value Size bottle

Brilliant Aiming Solutions™

**ACCUPIN WITH ACCUDIAL
LOST CAMO® EDITION SIGHT**

- Weight 10.29 oz.
- 1.77" sight housing
- Green Triangular Aiming Tip
- Fiber Optics/Tritium Illumination
- Accudial Adjustment for 245 to 335 fps
- 20-80 yards in 1 yard increments

BUSHWACKER ROOF

The Bushwacker Roof is a tree mounted hunting umbrella. The Bushwacker umbrella offers years of protection while hiding your silhouette. The patent-pending mounting bracket provides a full range of adjustment and allows the Roof to be mounted to virtually any tree. The large size provides ample coverage keeping you protected from the elements - so you can stay in your stand longer.

TURKEY NIGHTMARE

The ultimate bowhunting blind. Using our quick mount saddle, this 43" leafy cut umbrella style blind mounts on your bow of firearm in seconds. Lightweight, dead silent and will not effect accuracy! Collapses to 10", Wt. 9 oz.

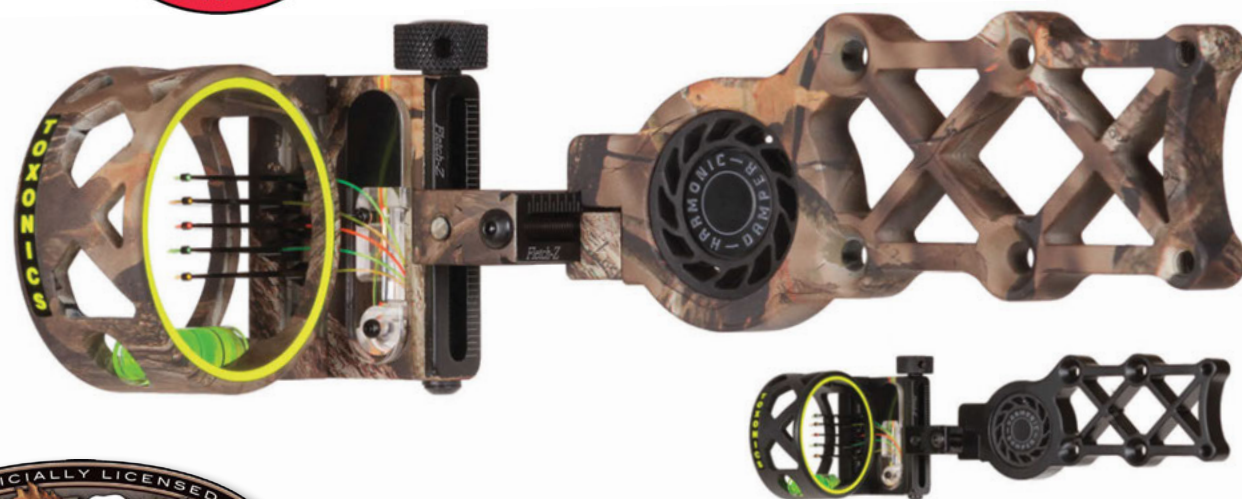

BUSHWACKER DEN

The Bushwacker Den is a tree mounted, quick setup hunting blind. The Bushwacker Den provides concealment from the wariest game while providing protection from the elements. The Camo "skirt" can be removed, allowing you to use the Roof and skirt separately. This allows maximum flexibility. The Bushwacker Den - your versatile hunting partner.

**FLETCH-Z SIGHT
LOST CAMO® EDITION SIGHT**

- Full size Gridlock mounting bar and pinguard
- Full size Mathews Harmonic Damper
- Micro Adjust Windage and Elevation

- Available Pin sizes .010, .019, .029 Weights

MADE IN THE USA!

Victory is the leading innovator and manufacturer of high performance carbon fiber arrows. We have over 40 years of carbon fiber manufacturing experience.

TECHNOLOGY

Victory is committed to maintaining its reputation as the leader in innovative product design and composite materials technology. Victory engineers are aerospace and composite materials veterans that have brought a new level of sophistication to the industry.

VICTORY ICE™

Lost Camo® Edition Victory arrows are treated with our revolutionary new Victory ICE™ arrow coating. ICE™ is the slickest arrow coating available for maximum penetration, increased arrow speed and less wind deflection.

FEATURES

- 100% Carbon Fiber Arrow Construction
- Tightest Quality Specification in the industry
 - Weight measured to +/- 0.5 grains
 - Straightness Tolerance +/- .001, .003, .006"
 - Spine measured to +/- .025"
- Exclusive Victory ICE™ Arrow Coating
- Available in Lost Camo®
- Bohning Blazer® Vanes for maximum broadhead accuracy
- Bohning nocks for ultimate strength and consistency

LOST CAMO® EDITION V FORCE®

The V Force is a standard diameter shaft produced to the tightest tolerances in the industry. The V Force comes with Bohning Blazer nocks and inserts for one deadly broadhead combination.

LOST CAMO® EDITION VAP® (Victory Armour Piercing)

The Victory VAP® is high performance, ultra small diameter, thick-walled, 100% carbon fiber arrow offering unprecedented speed and penetration. The VAP utilizes the exclusive Penetrator Broadhead Adapter® for an insane hunting arrow with no compromises.

Model	Inside Dia.	Outside Dia.	Length	Spine	Grains Per Inch

360 HEATED GRIP

For the extreme bow hunter who doesn't just sit in their tree stand when the weather suits most and is willing to brave the elements morning, day or dusk - the White Rhino 360 Heated Grip and total wrap design will keep your whole hand warm during weather that most decide to stay in the house and watch hunting programs. If you hunt in a cold environment and if the word "Rut" means something to you then the White Rhino 360 Heated Grip is just your speed! Just ask Fitzy!

Mathews Bow availability for the White Rhino 360 Heated-Creed™, Z7™, ZXT®, Jewel™, Monster™, Chill™, and Helim™.

Power Source: Rechargeable Li-ion 11.1 VDC , 2.2 hours of continuous on-time use or all day intermittent time.
