PRODUCTS
2015

Lost Camo® was designed to be effective across a wide range of topography and geographic locations. The distinctive high contrast, multi-directional foreground creates a 3-dimensional effect, while the backgrounds combine various shadows, colors and textures to form highly versatile camouflage.

Several leading brands within the outdoor and bowhunting industry utilize Lost Camo® for both a stunning look on the shelf as well as unsurpassed effectiveness in the field.

For more information regarding Lost Camo®, it's partners, or to locate a retailer that carries its products, visit www.lostcamo.com.

F E E L T H E

The 2015 NO CAM™ HTR is engineered for accuracy and delivers a

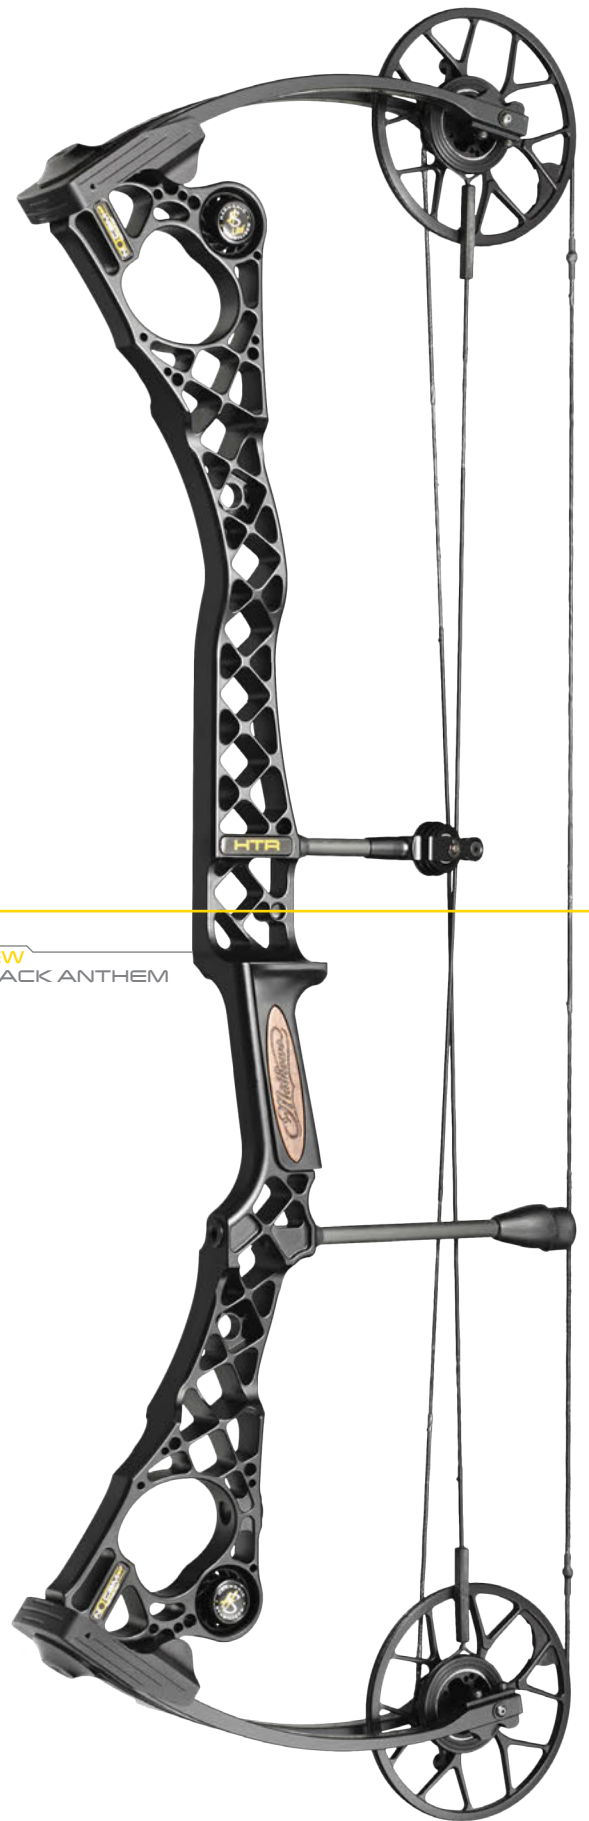

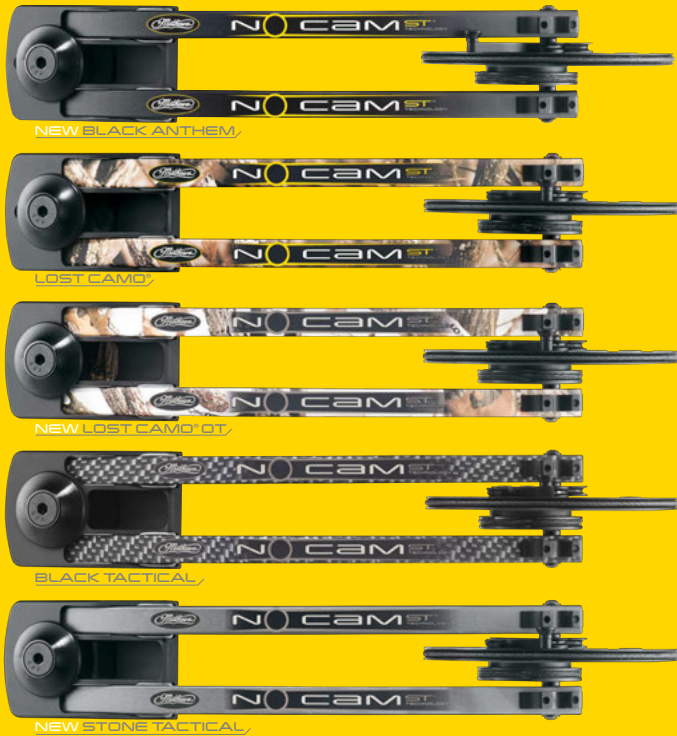

F U T U R E

radically smooth and balanced feel. **NOCAM™ HTR**

NO CAM™ HTR

NO CAM ST™ Technology (patent pending) put every other component into question when designing the new NO CAM™ HTR. The result is a truly integrated system featuring shorter, more rigid quad limbs, a less reflexed riser, twin Harmonic Stabilizers™ and our patented Focus Grip™. RockMods™ come standard on the NO CAM™ HTR and are available in 65%, 75% and 85% let-off. Choose between five exclusive finishes, including the new Stone Tactical and Lost Camo® OT.

NO CAM ST TECHNOLOGY

Up to 330 @ 65% • Up to 325 @ 75% • Up to 321 @ 85% • Axis to Axis 32" • Brace Height 6 5/8" • Physical Weight 4.14 / 4.3 lbs.** • Let-Off 65, 75, 85% • Draw Weights 50, 60, 70 lbs. • Draw Lengths 24 - 30" • Half Sizes 24.5 - 29.5" • Base MSRP \$1099

ARROWWEB®
CT-SERIES QUIVER

NEW Lost® DT

Tactical

Black

Quick Release Grip

Created for fast and easy arrow access.

Custom Color Hood Inserts

Personalize your CT-Series Quiver with custom color inserts. Available in 10 colors. Each CT comes standard with black, red and blue. (excluding tactical)

Redesigned Foam Inserts

New foam designed specifically for most expandable broadheads and fixed blades 1-1/8" and under.

Harmonic Damper®

Mathews® Harmonic Damper® absorbs residual sound and vibration.

Detachable Blade Protector

Developed for use with most expandable broadheads, the blade protector helps keep your blades sharp and you safe.

GridLock™ Structure

Spider Claw® Quiver Mount

Quickly and easily mount the CT Quiver with the exclusive Spider Claw® System.

Available in 4 or 6 Arrow Configurations

CUSTOM DAMPING®
ACCESSORIES

Personalize your Mathews® with Custom Damping Accessories®. Available in 10 different colors, these rubber accessories not only absorb vibration and reduce noise, they also look amazing on your bow. If that's not enough, put on a couple Monkey Tails™, the do-it-yourself string and cable damping system. They install in seconds and no bow press needed.

HARMONIC STABILIZER®

The Harmonic Stabilizer® and Harmonic Stabilizer® Lite reduces post-release vibration by up to 75%, and the Harmonic Stabilizer® Lite is nearly 70% lighter than the original.

MATHEWS® GENUINE ULTRA-REST

Full Containment

The Ultra-Rest® provides total arrow containment, even with a slow let-down.

Harmonic Damper®

Easy Adjust Timing Cord

Thumbwheel

ARROWWEB® T-SERIES QUIVER

The T-Series ArrowWeb® Quiver is the quick and easy way to attach and detach your quiver. The foam insert accommodates 5 fixed blade or expandable broadheads. The ArrowWeb® easily converts to right or left-handed set-ups, and adjusts for long arrows. Available in Black, Tactical and Lost Camo® finishes.

DEAD END® STRING STOP

The Mathews® Dead End® drastically reduces residual vibration and virtually eliminates post-release noise. Fits most bows currently equipped with a rear stabilizer bushing and installs in minutes.

FOCUS® GRIP

The Mathews® Focus® Grip's patent pending "Focus Ridge" optimizes hand placement, and minimizes hand torque by keeping pressure in the center of the grip. Available in 9 custom colors.

ARROWWEB® FP-SERIES QUIVER

FP-Series ArrowWeb® Two-Piece Quivers come in both 5 and 7-arrow configurations, for right or left handed shooters and easily mounts in minutes. The quiver hood holds a foam insert that accommodates both fixed blade and expandable broadheads. Available in Black and Lost Camo® finishes.

MISSION[®] CRAZE[®]

The Mission[®] CRAZE[®] is loaded with hyperadjustability and lethal performance for any age or experience level. \$299 MSRP.

CUSTOMIZE YOUR MISSION®

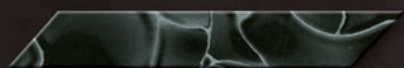

Remember deer only see in black & white, so if you're not into standard camo, consider customizing your bow with one of our new "Splash" finishes. With just enough color to set you apart from the rest and the breakup in pattern you'll need to blend in to your surroundings, these patterns are a fun way to be both unique and effective in the field.

NEW FOR 2015

MXB®-SNIPER LITE™

Extremely light-weight and balanced, the new MXB®-Sniper Lite™ features our patent-pending Sync Cam™ for reliable accuracy and enhanced durability. This innovative system not only synchronizes the cams for precision timing, it also has higher let-off, which puts less pressure on the string servings, increasing their lifespan. The Sync Cam™ system allows you to easily draw this crossbow by hand, and because the cams are synchronized, it automatically finds center at full draw. The MXB®-Sniper Lite™ also features the new, patent-pending Smart Guide™ cable slider, which angles up as you come to full draw, reducing pressure and torque on the cams, further ensuring long-lasting accuracy. Shooting up to 310 fps, the MXB®-Sniper Lite™ is an incredibly versatile and reliable crossbow available for \$599.

Helping kids draw out their inner hero.

Genesis®, the official bow of the National Archery in the Schools Program.

Through our exclusive partnership with NASP, Genesis™ bows are helping millions of young archers enhance confidence, focus and discipline.

- **NASP® is still growing!**
Over 10 million students from over 10,000 schools in 47 states and 6 countries have participated in NASP®.
- **Everybody can shoot.**
Success is not based on physical ability, but on individual skill.
- **Archery engages students.**
Regardless of age size or gender, and helps improve academic performance, attendance and behavior.

The Genesis™ bow, available in a wide range of colors.

Over 10 million kids have shot a Genesis.™

The revolutionary Genesis™ bow is giving kids all over the world a new sense of adventure, and with revolutionary features like, Zero Let-Off Technology Genesis™ bows offer advantages that make them a perfect choice for archers of any age or size. Because the draw length is always “right,” beginning archers can’t develop bad habits caused by an improperly fitted bow, and since there isn’t any specific draw length, kids can’t outgrow it. Built to last, Genesis™ bows are manufactured with a tough, aluminum riser and durable composite limbs to provide a lifetime of adventure... **Join the Revolution!**

genesisbow.com

Introducing Zebra[®] Trophy, The Most Advanced Bowstrings & Cables You Can Shoot.

After nearly 20 years of research and development we are proud to present the most advanced bowstring we've ever produced.

Our all new proprietary Trophy Process, combined with an ultra premium blend of BCY material, have produced a new string and cable with all the qualities today's archer's demand.

And, Zebra[®] Hybrid uses an advanced blend of BCY material that's designed to be the high performance, hassle free bowstring and cable for you.

Zebra[®] Trophy truly is the professional's choice.

zebrastrings.com

New Zebra[®] High Performance Bowstring Wax

Increase the longevity and performance of your premium bowstring by applying Zebra[®] performance wax to your strings and cables regularly. Zebra[®] High Performance Wax is a unique formula designed to condition your strings and cables, which will help maximize the performance and life of your strings and cables.

Mix or match any 2 of these 34 amazing custom colored strings to create a look that matches your style.

CORE XTREME TECHNICAL VEST

M12A-LC409

The Core Xtreme Technical Vest is a great mid-weight vest for layering or worn alone. Silent, soft, lightweight, and warm this vest is your new favorite. 100% Polyester shell is water resistant, windproof yet breathable and lined with odor reducing Silver fleece with antimicrobial treatment to minimize human odor. Vest offers a total of 8 pockets to keep all your gear close. Dual access pockets, waterproof zippers plus added hand warmer pockets.

CORE XTREME TECHNICAL JACKET

M12A-LC408

The Core Xtreme Technical Jacket is an awesome mid-weight jacket. Silent, soft, lightweight, and warm this jacket is your new favorite. 100% Polyester shell is water resistant, windproof yet breathable and lined with odor reducing Silver fleece to minimize human odor. Jacket offers a total of 8 pockets to keep all your gear close. Dual access pockets, arm pit zippers for airflow, waterproof zippers, hand warmer pockets.

CORE XTREME TECHNICAL PANTS

M12A-LC411

Our Core Xtreme Technical Pants are the perfect mid-weight pants. Silent, soft, lightweight, and warm. 100% Polyester shell is water resistant, windproof yet breathable and lined with odor reducing Silver fleece with antimicrobial treatment to minimize human odor. Dual access pockets with zippers for gear.

SILVER XTREME HEAVY WEIGHT RAGLAN 1/4 ZIP SHIRT

M12A-LC626

This Silver Xtreme Long Sleeve 1/4 Zip Heavy Weight Raglan Shirt is designed as the ultimate choice for cold weather hunts. Lightweight, breathable, 95% Polyester and 5% spandex construction adds moisture wicking abilities and core body temperature regulation. 1/4 zip design allows you to warm up or cool down. Spun in Silver Xtreme fibers feature odor fighting antimicrobial treatment to keep human scent to a minimum.

Hunting wear is all we do!®

**MONSTER™ WATERPROOF
FLEECE JACKET**

MSJ

It's made of HyperHide H20™ so it's as quiet as it gets. The waterproof/breathable HydroCore™ laminate enables you to weather any storm. Insulated with Heat Tech™ so you'll stay warm when the temperature drops. And, it features Gamehide's exclusive Freedom Sleeve™ for unmatched mobility.

**MONSTER™
WATERPROOF
FLEECE BIB**

MSB

It will keep you warm and dry thanks to the HydroCore™ laminate and Heat Tech™ insulation. Full leg waterproof zippers make it easy to get on over boots and a two-way front zipper allows easy access.

**GRID LOCK®
JACKET**

MB9

**GRID LOCK®
PANT**

MB2

The perfect mid-weight bowhunting jacket and pant combination. Soft and silent, it's everything you need on all but the worst weather days.

MATHEWS® LOGO HIGH PERFORMANCE HOODIE

MFH

Made from our performance fleece, it's soft, silent and wicks moisture. It's a great layering piece for cold weather hunts or can be worn alone as a casual or early season piece.

WICKED TEE

MBS

Warm weather is never fun while hunting. The Wicked Tee combats the elements with its lightweight, breathable wicking fabric in Lost Camo®. This draping tee will be your new go-to outer garment for those warm early season hunts in the fall and gobblers in the spring. Many hunters also use the tee to throw over a heavier fleece when it's just not cold enough for your Grid Lock!

WICKED LITE PANT

M33

This pant just plain hunts! Our woven poly fabric breathes well, dries fast, resists burrs and is built for comfort. This new design includes front slash pockets, dual rear pockets plus a utility pocket on the right side. An elastic section in the waist allows for a great fit while the articulated knees let you move freely. Belt loops on waist and zippered fly with post closure round out a great pant.

APEX SKULL CAP

MSK

During the rut when hunting is best you need to stay warm to stay on the stand. The best way to stay warm is with the Apex Skull Cap with Thinsulate Flex Insulation. This skull cap fits your head like a glove and looks very sharp.

APEX NECK GAITER

MNG

When the mercury drops the deer action heats up, stay warm and stay on the stand longer with the Apex Neck Gaiter with Thinsulate Flex Insulation. If you have never worn a neck gaiter, you are missing the boat. No other accessory can help you stay on the stand longer than a neck gaiter.

SCENTLOK
TECHNOLOGIES

FULL SEASON VELOCITY JACKET

- Carbon Alloy® technology
- DWR Treated shell repels water
- Five pockets for essential gear storage (3 outer and 2 inner)
- Safety harness access opening
- Micro-fleece liner for added warmth and comfort

VELOCITY SHOOTERS GLOVE

Our popular shooter glove is now available in a weather resistant version. Light enough to allow for great dexterity, yet warm enough to keep you comfortable in the stand.

FULL SEASON VELOCITY PANT

- Carbon Alloy® technology
- DWR Treated to repel moisture
- 8 pocket design without noisy velcro or buttons
- Inner thigh gusset for improved mobility in the field
- Gripper waist for a secure fit

FULL SEASON ULTIMATE HEADCOVER

A SCENTLOK cap with the headcover built right into the design. Easy pull down hinged facemask for calling or anchoring a shot.

POWER YOUR LEGS TO THE MAX

LOST CAMO® EDITION PREDATOR HUNTING SOCK

A comfortable sock guaranteed to not fall down your leg! The Predator features Merino Wool and Graduated Compression Technology, which is clinically proven to:

- Enhance blood flow in legs & feet
- Speed athletic recovery
- Help prevent injury & reduce calf cramps
- Provide energizing effect on legs and reduce foot fatigue

Graduated compression also relieves symptoms of plantar fasciitis, restless legs, poor circulation, and more. Seamless construction protects your feet from irritation – no blisters!

Merino Wool provides a soft feel while reacting to changes in your body temp. It will naturally absorb sweat and odors that are normally released during washing.

Our product is proudly made in the USA. We offer a 30-day money back guarantee and a one year warranty.

APPAREL

GET LOST IN YOUR SURROUNDINGS

PURSUIT
BPURLC

Light weight, technical and a breeze to carry - literally. The Pursuit has all the features you will need for a trip to the tree stand or more localized hunts. It accommodates water bottles or a hydration bag, along with five storage pockets and a set of bedroll straps.

- Water bottle pockets
- New AirTrack™ suspension
- Hydration compatible

Badlands

MONSTER
BMFLC

Why did we call it the Monster? Perhaps it's the 1000+ cubic inches of storage or maybe that is has more features than any other fanny pack ever developed. But mostly it's because when we wear it we feel like a Monster... a monster that can and will hunt anything with success.

- Flex-frame
- 3 point adjustable shoulder straps
- Hydration Compatible
- Molded foam suspension

SUPERDAY
BSDPLC

The Superday is one of the best all-round hunting packs we make, period. When your hunt calls for a do-it-all daypack, rely on the Superday. With the batwing compression system, rifle and bow carrying capability and built-in sidearm holster, the Superday keeps your mind on your hunt and not on your gear.

- Adjustable rifle boot
- Pistol holder
- Molded foam suspension
- Hydration compatible

2200
B22LC

If there is one product that best personifies "the spirit of Badlands®", it is the 2200. Fast, passionate, in love with technology and ready to do whatever is needed to get the job done. This was the pack; that some twenty years ago, started it all- and was the very first model to bare the Badland's name.

- Redesigned for 2014
- T-6 Aircraft aluminum frame
- Built in meat shelf
- Spotting scope pocket
- Front entry suspension

FLYING ARROW ARCHERY

Flying Arrow Archery revolutionized the broadhead industry in 2013 with its unique accurate blade design. The coring design of the Toxic broadhead has given bow hunters around the world the results they crave with its accuracy, wound channel and successful harvest rate. The Toxic comes standard with open-flex technology and a single beveled edge. This technology is accompanied by a bone crushing chisel tip that allows the broadhead to penetrate exceptionally well.

With the wonderful success and buzz created by the Toxic last year, Flying Arrow Archery is now offering a Toxic driven design that is aimed at the more traditional archers. The new Cyclone broadhead is a more conventional style head but with the Flying Arrow twist, making it a happy medium between the lethal Toxic and the classic three blade design. Both broadhead designs are available in 100 gr, 125 gr., crossbow, Deep Six, and Vertical bow options.

MAXIMA RED

ULTIMATE HUNTING PERFORMANCE – REDEFINING BROADHEAD ACCURACY

The Mathews® Edition Maxima RED® with Lost Camo® RED ZONE® is designed to deliver the ultimate in broadhead and bowhunting performance. Mathews® testing shows that Maxima® arrows make Mathews® bows shoot best, and that Maxima RED® arrows deliver a breakthrough level of broadhead consistency and shooting performance. Managing how an arrow flexes in flight (Dynamic Spine) is the key to arrow accuracy, and no one does a better job at this than Carbon Express®. *Contain the enemy of accuracy - Mathews® Edition Maxima RED® with Lost Camo® RED ZONE® – the best hunting arrow ever.*

- 50744 Maxima RED® Mathews® Edition 250 – 12 Pack Shafts
- 50745 Maxima RED® Mathews® Edition 350 – 12 Pack Shafts

- 50743 Maxima RED® Mathews® Edition 350 – 36 Bulk Arrows

CARBON EXPRESS®

NEW

MAXIMA PNK[™] RZ

New Maxima® PNK™ RZ – THE ULTIMATE LIGHTWEIGHT HUNTING ARROW

The Maxima® PNK™ RZ sets a new standard for hunting arrow performance. It combines the same world class, lightweight speed and accuracy of the Maxima Blue Streak® with the breakthrough broadhead accuracy of the Maxima RED®. The result: a new, lightweight hunting arrow that shoots broadheads so well that it is a revolution in bow hunting performance. The PNK™ RZ features a hi-tech carbon shaft designed with stiffer ends that isolate the arrow's flex in the middle of the shaft: the RED ZONE®. Testing shows that the new PNK™ RZ with RED ZONE® technology flies broadheads as well as field points. The PNK™ RZ features pink accents that match the 2015 Mathews® Chill™ SDX PNK™ bow graphics package.

- 50799 Maxima PNK™ Mathews® Edition 150 – 12 Pack Shafts
- 50797 Maxima PNK™ Mathews® Edition 150 – 6 Pack Arrows
- 50798 Maxima PNK™ Mathews® Edition 150 – 36 Bulk Arrows

NITRO VANES (MATHESW® LOGO)

- Superior adhesion with "Micro Glue Pockets"
- Retains more energy downrange
- xtremely quiet in flight
- Available in 2.0" and 2.2" Low Profile

BROADHEADS

Ramcats are the hardest hitting, deepest penetrating, most accurate broadheads with the largest fixed blade cut diameter on earth. These are the only fixed blade Broadheads that will fly with your field points. The 100 and 125 grain Ramcats have cut diameters of 1 3/8" and 1 1/2", respectively, and blades are sharpened on the rear and have the ability to roll forward so they cut coming back out. 420 heat treated stainless steel body ferrule that has a Hydroshock Self-Centering Chisel Tip with patented deep lobes, .032" thick blades, and Firenock Aero Insert Technology. Hits like a Ram... Cuts like a Cat!

LOST CAMO[®] EDITION / CARBON

SS1-HD

All the versatility and functionality that a side mounted stabilizer has to offer. The SS1-HD counter balances all unwanted torque induced from sights, rests, quivers, riser geometry and hand pressure.

- Bracket mount is adjustable up and down
- Carbon bar is adjustable front and back up to 3.5"
- Weight adjustable from 5 oz. - 10 oz. with Mathews[®] Harmonic Stabilizers™ options
- Incorporates Mathews[®] Harmonic Dampers™
- Measures 11.25" and weighs 11.5 oz.

LOST CAMO[®] EDITION / SMOKE

SS1

The SS1 is the original fully adjustable side mounted stabilizer. Perfectly balances and isolates your bow of unwanted torque in a compact, ultra adjustable, fully weight adjustable system.

SS1 G2 8.5 measures 8.5" and weighs 8 oz.
SS1 G2 10.5 measures 10.5" and weighs 8.5 oz.

LOST CAMO[®] EDITION / CARBON

LOST CAMO[®] EDITION

STASIS

The Stasis is a progressive design of our top selling SS1 off-set stabilizer. The only stabilizing bar on the market with a built-in ALL AXIS PIVOT point. This patent pending ALL AXIS PIVOT point in conjunction with our patent pending SS1 bracket design allows for infinite adjustments to counter balance your bow.

Available in 15" and 19" lengths and comes standard with SS1 bracket and six 1 oz. stainless steel weights in your choice of black or Lost Camo[®].

LOST CAMO[®] EDITION / CARBON

HD9

The HD-9 is the only high modular carbon stabilizer incorporating Mathews[®] Harmonic Dampers™. The HD-9 is 100% American Made. Perfect for archers looking for the added stability of a slightly longer front bar without compromising maximum maneuverability.

HD-9 measures 9" and weighs 6.5 oz.

8" LOST CAMO[®] EDITION / SMOKE

HUNTER G2 STABILIZER

Hunter G2 stabilizers feature our patented acrylic rod technology eliminating shock, vibration and noise. Designed slightly lighter making them perfect for a lighter set-up but will also accommodate a heavier set-up with the ability to add unlimited weight.

LOST CAMO[®] EDITION

HD2 & HD3

The HD2 and HD3 compact stabilizers incorporate Mathews[®] Harmonic Dampers™ and Mathews[®] Harmonic Stabilizers™ to produce an effective weight adjustable stabilizer option. The precision American made 6061 aluminum body of the HD2 and HD3 houses several dampers in a smaller area producing greater vibration reduction.

HD2 measures 4.25" and weighs 5.25 oz.
HD3 measures 6" and weighs 7 oz.

SPORT HUNTER XTREME

Bee Stinger's Sport Hunter Xtreme Stabilizer is specifically engineered to maximize a bow's moment of inertia to improve aiming and reduce bow torque throughout the shot. The ultra-rigid 100% carbon bar coupled with three adjustable end weights allow fine-tuning in 1 ounce increments optimizing perfect bow balance and stabilization.

PRO HUNTER MAXX

Bee Stinger's Pro Hunter MAXX Stabilizer incorporates a unique, patented and fully customizable end weight system designed to maximize a bow's moment of inertia to improve aiming and reduce bow torque throughout the shot. The ultra-rigid 100% carbon bar coupled with three large diameter, focused end weights allow configurations of 2, 4, 6, 8 or 10 ounces for the ULTIMATE in accuracy-enhancing bow balance and stabilization.

LC 360 REST

LC APACHE REST

LC APACHE 5 STABILIZER

LC APACHE 8 STABILIZER

ULTRA-REST HDX

- Total containment
- Total fletching clearance
- Drops only when the bow is fired not during a slow let-down
- No bounce back
- Tested at over 400fps
- Deadly silent draw
- Made in the U.S.A with a Limited Life Time Warranty

CODE RED

Bowhunter's #1 selling fall-away rest!
The Ripcord® Code Red is proven and dependable. Code Red falls fast! That's why it's the #1 choice of so many bowhunters! Fast fall-away minimizes time hand torque can be transferred to the arrow.

- Ultra-fast fall-away for maximum forgiveness
- Soft overmolding eliminates the need for extra moleskin
- Innovative Drop Dead Brake System™ keeps launcher from bouncing back up into the arrow as it leaves your bow
- Arrow Containment System™ assures your arrow can't fall off the rest
- Exclusive "football clip" fits all cable sizes making the Code Red easy to install

ACE

The new Ripcord® ACE™ represents a quantum leap in fall-away rest design thanks to hundreds of hours of testing using high-speed camera footage. ACE is also the first micro-adjustable fall-away rest to offer micro-adjustability and a "narrow" hunting launcher. Micro-adjustability allows you to fine-tune rest position like never before. You won't believe how well you will shoot! The narrow hunting launcher is an innovation that dramatically increases vane clearance.

- FireFall Design™. The launcher falls only when you fire, not when you let down
- Fulltime Arrow Containment
- DoubleDown Brake™ ensures there is no launcher bounceback!
- Outboard Cord™ fully external cord. This completely eliminates any cord wear issues and positions the cord well to the side of the arrow
- RightTime™ Fall Away System eliminates the transfer of your bow hand torque to the arrow. Yet the launcher also offers stability to the arrow upon release

SMACKDOWN PRO ARROW REST

Trophy Taker's popular SmackDown PRO arrow rest now features an integrated Mathews® Harmonic Dampener™ in the mounting bar.

- Full capture
- Silent coated containment ring with easy load gate
- Limb or cable driven
- Multiple spring tension settings
- All metal construction
- Sleek, lightweight and quiet

BLACK GOLD

Premium Bowsights

- RH/LH adaptable

OPTIMIZER LITE KING PIN

20 years in the making, the 3rd generation of archery's #1 selling, single pin mover is loaded with features no other bow sight can offer. Interchangeable wheels make changing tapes easier than ever before and allow for using multiple arrow and draw weights. A crystal clear magnifier and Blue Burst light allow for rapid adjustment in the darkest of blinds and for the oldest of eyes. Fully integrated 2nd and 3rd axis adjustment top it all off to make this the most accurate and deadly hunting sight on the market today. On the range or in the field, start ruling your kingdom today with the Optimizer Lite King Pin.

- Industry's most accurate sight tape system. Sight in at 20 and 60 yards and you're dialed in TO THE YARD out to 100
- Wheel-forward design is ideal for mounting one-piece quivers
- Sight tape magnifier allows for adjustment to the 1/4 yard!
- Optional Blue Burst light (model 2500) illuminates sight tapes for rapid adjustment in dark ground blinds
- "Blind 20" feature allows for fast, no look return to your most common predetermined distance
- 2.1" of vertical travel adjustment
- Precision machined brass rack and pinion delivers silky smooth operation

2015 also marks the first time that an HHA sight is available on a dovetail!

ACCUTOUCH

The AccuTouch Slider Sight with AccuClicks-Pick it! Click it! Stick it! With AXCEL's new patent-pending AccuTouch Slider Sight with AccuClicks, you can Pick your target, AccuClick your yardage, and Stick It! Includes Mathews® Harmonic Damper™. We have borrowed technology from our Olympic Gold medal-winning tournament sights and toughness from our multi-time Best Buy-winning ArmoTech sights to make the most accurate slider sight ever built.

FANG GS

FANG/FANG GS

Features a rubber insert in the trigger for improved feel. Two trigger options included in package; a straight trigger for more draw/speed and a relaxed trigger for greater comfort. Superior 2 screw trigger sensitivity setting, provided by a trigger travel adjustment screw, and a separate trigger pressure setting screw with choice of included varied weight springs. Available with a black anodized head with your choice of a Lost Camo® Velcro® strap or black leather buckle strap or Lost Camo® anodized head with your choice of a black Velcro® strap or black leather buckle strap.

FANG RC

Same great features as the Fang and Fang GS with a rope connection. Uses our new Red Rope Connection for quick and easy adjustment.

FANG 3 AND FANG 4

Featuring a Full Containment System (FCS) with a Hook-style jaw that allows the archer to push the FCS Slide forward to lock the release on the D-loop for use in a hands free hunting situation or pull the FCS Slide back for repetitive shooting. Ability to shoot with no sensitivity spring for the lightest possible setting as well as a medium and heavy spring, included in the package, for heavier sensitivity settings. A trigger travel adjustment screw allows numerous different settings. Adjustable thumb barrel positions can be attained with the large knurled thumb peg and teardrop. Pull the trigger to fire, then pull trigger again after firing to reset the hook. Three finger and four finger handles are available. Available in Lost Camo®.

STEADY FORM

STEADY FORM

"Every serious bowhunter knows the importance of consistent and accurate shooting at the moment of truth. One handy product that will help is the bow mounted Steady Form system which eliminates hand torque and improves arrow placement. Check it out for yourself." -M.R. James - Founder of Bowhunter Magazine and Archery Hall of Fame inductee.

Steady Form is an essential tool for any archer. For the beginning archer it helps to learn proper form and eliminate string slap. For the hunter, Steady Form increases down range accuracy and confidence. In the ground blind or treestand, Steady Form helps the hunter stay consistent with their form while having awkward shots through windows of the blind or sever downward angles. There is no other product that improves accuracy, consistency, confidence, creates another anchor point, prevents string slap and eliminates torque.

- Steady Form comes in a youth model, the Original, and now the new ProSeries in Lost Camo®, Lost Camo® AT and multiple other color options.
- ProSeries weighs 1.9 oz (Steady Form only)
- Guaranteed to increase accuracy and confidence or your money back.

RAZOR-PRO MODEL #RO-20LC

Replaceable Razor-Blade/Gutting Blade Folder

Never sharpen your knife again with Outdoor Edge's new Razor-Pro double blade folder. Features a replaceable razor-blade knife plus our signature gutting blade to open game like a zipper without cutting hair or internal organs. To replace a blade, simply push the lock button to remove and insert a shaving-sharp new one. The black-oxide coated blade holder provides added support to the razor-blade for the strength of a traditional knife and sharpness of a surgeon's scalpel. Blaze orange rubberized handles ensure a secure, non-slip grip, even when wet and never get lost in the field. Each knife comes complete with six surgical 420 stainless steel razor-blades and a quality Lost Camo® edition nylon belt sheath. Replacement packs of 6-blades are sold separately.

Specifications

- Knife Blade: 3.5" (8.9cm)
- Gutting Blade: 3.2 (8.1 cm)
- Overall: 8" (20.3cm)
- Total Weight: 3.6 oz.
- Razor-Blade Steel: Japanese 420J2
- Vacuum heat treatment
- Gutting Blade Steel: Japanese AUS-8
- Handle: Rubberized TPR

Razor Pro: MSRP: \$79.95

SPYPOINT®

M8 TRAIL CAMERA

LOST CAMO® EDITION

The SPYPOINT® M8 BLACK LEDs game camera captures 8-megapixel color photos by day and black-and-white photos at night and 10 to 90 sec. videos with sound. The M8 camera uses high-power invisible BLACK LEDs. The M8 model is the perfect camera to avoid spooking the game and this camera is a popular unit for security purposes because of the invisible BLACK LEDs. The 5 zone sensor will give you a faster trigger speed and ensures you get more centered images. The distance detection sensor can be adjusted from 5' to 50' and the multi-shot mode allows up to 4 pictures per detection. The removable internal camera makes this camera one of the easiest to use on the market.

- 8 Megapixels
- 46 LEDs
- Invisible BLACK LEDs
- Video with sound recording

ADD-A-CAM™

With the Stic-N-Pic® Add-A-Cam™ you can attach multiple cameras to the Stic-N-Pic® Trail Camera Stand or Tree Mounts and capture the 360-degree view of your entire landscape.

- Mount multiple cameras on one mount
- Adjustable camera height
- Adjustable tilt/pan
- 360-degree rotation

Now Available, Our New Mini Ground Mount. Contact Us for Details.

TRAIL CAMERA STAND

The Stic-N-Pic® Trail Camera Stand gives you the freedom to decide where your camera should go, quickly: on or off the trail—even in between bedding and feeding areas. Get in, get out.

- Adjustable camera height (25"-51")
- 360-degree rotation
- Add-A-Cam™ allows for multiple cameras on one stand
- Adjustable tilt/pan
- 3 prong stand fits securely in the ground

Trail Camera Mounting System

TRAIL TREE MOUNTS

Stic-N-Pic® Tree Mounts give you the versatility to have precise scouting tools necessary to give you that extra edge.
